

Terms of Self-Pay Surgical Procedures

Ophthalmology Partners, Ltd is happy you have chosen Dr. Fountain to perform your surgery. It has been determined that your surgery is not considered medically necessary and therefore is not covered by third-party insurance.

There are three components of charges for your surgery, (1) surgeon's fee, (2) hospital facility charge, and (3) anesthesia fee.

Fees are charged for services rendered and not for surgical results. While Dr. Fountain will strive for a satisfactory surgical outcome, results cannot be guaranteed for a variety of reasons including effects of intra-operative sedation, degree of intraoperative bleeding and post-operative swelling and the unpredictable nature of wound-healing. *In the event subsequent enhancement surgery is desired or needed, additional hospital and anesthesia fees will apply.*

Your signature below confirms acceptance of the financial terms of non-covered, self-pay surgical procedures. Again thank you for choosing Ophthalmology Partners, Ltd, for your eyecare needs.
