

TAMARA R. FOUNTAIN, M.D

---

Ophthalmic Plastic and Reconstructive Surgery

Limited Examination for Botox® Treatments

We appreciate the opportunity to provide you with cosmetic Botox® treatments. Dr. Tamara Fountain is an ophthalmologist with specialty training in plastic and reconstructive surgery around the eyes. She will be administering your injections following a brief history and screening examination. You will **not** receive a comprehensive eye examination as part of this procedure.

We recommend follow up with your regular ophthalmologist for continued, routine eye care. If you are not under the regular care of a general ophthalmologist, you should make an appointment for a full exam based on the following recommendations of the American Academy of Ophthalmology:

Age	screening exam
6-40 years old	every 3 years
40-65 years old	every 2 years
over 65 years old	every 1-2 years

More frequent check-ups are recommended for high risk groups: premature infants, prior or family history of eye diseases and African Americans.

Thank you for allowing Ophthalmology Partners, Ltd. to participate in the care of your eyes.

.....

I understand and accept the conditions of my examination by Dr. Fountain.
